

## THE STORY OF THE MAYFLOWER

Saturday October 10<sup>th</sup> 8pm

Katy Cawkwell's story follows the journey of Squanto, the native boy who was captured by the English, and sold into slavery, but escaped back home, and played a vital role in the Pilgrims' first year in America, and the journey of William Bradford, the sickly boy from England who travelled first to Holland and then across the ocean, following a dream and trusting in God.

Along the way, we encounter many of the main characters and events surrounding the journey of the *Mayflower*, ending with a reflection on how these events are remembered today. The performance has been developed with input from Plymouth University and the *Mayflower400* team, to ensure historical accuracy.
